

GOT NALOXONE?

CARRY NALOXONE (NARCAN®).
SAVE LIVES.

AVAILABLE WITHOUT A PRESCRIPTION

Naloxone is an emergency medicine that can stop an opioid overdose.

Opioid overdoses can occur from prescriptions you get from a doctor and non-prescription drugs.

Many Minnesota pharmacies provide naloxone through a standing order, meaning you can get the medication without a doctor's prescription. Your health insurance may pay for the medication or it can be paid for with cash.

Visit health.state.mn.us/naloxone to find participating pharmacies near you.
