

MEADA PRESENTATIONS

Our DFC Coordinator, along with MEADA members, are available to provide prevention-focused education to classrooms, staff, and parents. Topics include, but are not limited to:

Tobacco/Vaping:

What are vapes? Why might someone use nicotine? What are the current use trends? What are the possible health, social, and legal consequences? How can I or someone I know get help?

Cannabis:

What is cannabis? What forms does it come in? Why might someone use cannabis? What are the current use trends? What are the possible health, social, and legal consequences? How can I or someone I know get help?

Alcohol:

What is alcohol? Why might someone use alcohol? What are the current use trends? What are the possible health, social, and legal consequences? How can I or someone I know get help?

Hidden in Plain Sight:

What are the signs of adolescent substance use? What can parents/caring adults look for? What are the latest use trends for youth? What resources exist? *Adults only.*

Addiction and the Developing Brain:

What are the dangers of using substances? How do they affect the brain? How risky and harmful is substance use? What tools are available to prevent use?

To request a presentation, fill out the [form on our website.](https://meada.net/request-a-presentation/)
